Neither Slav nor Jap Taking Steps in the Dark Around Mukden.
Da Pass Kuroki's Objective and Four Companies of His Men Were Repulsed There Tuesday — Kouropatkin Must Hold Mukden for Political, as Well as Strategic Reasons, and Japs Must Drive Him Out.

(BY THE ASSOCIATED PRESS—P.M.)
ESTABLISHED is that Oyama is again saying to flank Gen. Kouropatkin from the east. His advance forces are seeking to obtain command of the roads leading twenty to thirty miles east of Mukden. Yesterday they attempted to seize Da Pass, on the road to Fushun, in order to turn the Russian left, but they were repulsed.

In addition to the two Russian corps already mobilizing, seven other corps are to be called to the colors. Strategic and political considerations seem to make it essential that Gen. Kouropatkin make a stand there and prevent the town from being made the winter headquarters of the Japanese, while the lack of adequate facilities elsewhere for the housing of troops during a rigorous Manchurian winter make it necessary that the Japanese bend all their energies to the capture of the town.

JAPS ATTACK DA PASS.
(BY THE ASSOCIATED PRESS—P.M.)
BERLIN, Sept. 21.—A dispatch from Mukden dated September 21, 9:15 p.m., to the Lokal Anzeiger says: "The Japanese Tuesday attacked Da Pass, fifty miles southeast of Mukden, with what result is not known. 'The Red Cross institutions here are making ready for general engagements.'"

PORT ARTHUR A BLANK.
(BY THE ASSOCIATED PRESS—P.M.)
ST. PETERSBURG, Sept. 21, 1:20 a.m.—There is further delay in the decisive news from the front. The situation at Port Arthur remains a blank, although it is felt that important developments may be even now occurring there.

The movements in the north are still of a tentative and preparatory character on both sides, which have not yet crystallized into a definite clash of forces at any one point. A resumption of the Japanese advance is now expected to occur any day. It is the third week since the fighting at Liao Yang, and the Japanese have had time to transport reinforcements from Yinkow and bring up sufficient men to the front to replace their losses, but it is not impossible that several days will intervene before the armies come to close quarters. The interval is being devoted on both sides to feeling out the strength and disposition of the opposing forces.

The Japanese probably will attempt to capture the passes of the Da Mountain range, running half way between the Hun and the Taihe rivers. The possession of these passes is important for the Japanese, as it will not only enable them to march northward, but also screen movements of their troops from the prying gaze of Russian scouts.

It is fully appreciated here that the Japanese must try for the possession of Mukden, as otherwise it will be difficult for them to provide the army with winter quarters. Liao Yang does not afford sufficient accommodations, although many houses escaped destruction in the recent battles. Movable huts are quite unsuitable for the housing of the Japanese, owing to the severity of the climate. The average winter temperature is 40 deg. below zero, and the cold is intensified by continual winds and an almost entire absence of snow. In spite of this, however, the campaign will probably continue during the winter if the Japanese succeed in getting into Mukden.

In this contingency, Gen. Kouropatkin, for various reasons, will not be likely to allow the Japanese to remain in undisturbed possession of this point, which is important not only from a strategic, but a political point of view.

NEGRO'S EYES SHOT OUT.
Georgia People Drive About in Hacks and Put Bullets into Blacks Who Happen Along.
(BY THE ASSOCIATED PRESS—A.M.)
TALBATTON (Ga.) Sept. 21.—The negroes recently dismissed by the court here on the charge of belonging to a "before-day" club were followed on their departure by a hack carrying four or five white men.

About a mile from town the hack party met a negro boy named Jack Troy. In passing, someone in the hack shot him, wounding him so seriously that he is not expected to live.

Six miles from town the hack party called Edward Martin, a negro, from his house and made him get in the hack, where one of the party shot the negro's eyes out and he also is not expected to live. These negroes were not charged with being members of the club.

RUNS INTO DYNAMITE.
Car Blown up at Melrose, Mass.
Nine Persons Dead, Nineteen Seriously Injured and Many Others Hurt.
Fifty-pound Box of the Explosive Falls from an Express Wagon.

(BY THE ASSOCIATED PRESS—P.M.)
MELROSE (Mass.) Sept. 21.—An outward-bound electric car, containing thirty-two persons, was blown to pieces in this city tonight by striking a fifty-pound box of dynamite that had fallen off an express wagon. Six persons were killed outright, three more died of their injuries within an hour, and nineteen others were taken to the hospitals suffering from severe injuries. At least a score of persons in the immediate vicinity of the explosion were hurt by glass and splinters. The following dead have been identified:

DR. MALCOLM E. McLENNAN, Melrose Heights.
E. N. HAYNES, Melrose.
WINFIELD ROWE, Saugus, Mass., motorman.
E. A. STOWE, South Boston.
FRED D. MARSHALL, Boston.

The unidentified dead are three women and a three-year-old girl. EDWARD A. WATERHOUSE of Melrose suffered amputation of a foot, and was otherwise badly injured. DR. PERRY of Wakefield, both legs broken.

MRS. JOHN CONWAY of Melrose, both legs broken.
GEORGE H. ANDREWS of Melrose received a compound fracture of the left leg, and his foot also was amputated.

All of these are likely to die. So great was the force of the explosion that all but ten feet of the rear portion of the car was blown into small pieces, while windows within a radius of a quarter of a mile were shattered.

The immediate vicinity of the accident presented a fearful spectacle when those in the neighborhood reached the scene. The ground was strewn with legs and other portions of the bodies of those who had been killed, and shrieks and groans came from the writhing forms of the injured.

The car contained mostly men on their way to their homes in this city, the accident taking place only a quarter of a mile from Melrose. Within a few minutes, a great crowd collected and the injured were cared for until physicians, not only from Melrose, but from Medford, Everett and Malden reached the scene.

For more than three hours there was the greatest confusion, and it was impossible to obtain any of the names of the dead, or to ascertain the cause of the accident. Thousands of persons rushed about trying to find relatives and friends. The police arrested Roy Fontenot, driver of an express wagon. Fenton, it was learned, was carrying two fifty-pound boxes of dynamite on his wagon, and did not know until he reached the express office that one of the boxes had dropped off. He hurried to the scene in hope of picking it up, but the electric car had reached the box first.

The report was heard many miles. Directly opposite the scene was the Masonic building, every window of which was shattered, and through one of the windows a human form was blown. A score of persons within a hundred yards of the car were knocked down and rendered deaf by the concussion.

FOREIGN RAISIN CROPS.
Turkish Crop Has Fallen Off Fifty Per Cent and Spain's Will Be About Normal.
(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, Sept. 21.—[Exclusive Dispatch.] Some hope may be transmitted to California raisin growers by the fact that the American Consul at Smyrna, Turkey, has sent the report here that the Turkish raisin crop for this year will be about half what it was a year ago. Last year's crop amounted to 62,000 tons, whereas this year not more than 25,000 tons will be harvested.

Reports received from Spain today show that the Spanish raisin crop will be about normal.

FRATERNAL SANITARIUM.
ST. LOUIS, Sept. 21.—The Associated Fraternities of America held a business meeting at the Temple of Fraternity. A resolution for the erection of a sanitarium in Southwest, New Mexico for consumptives, to be known as the National Fraternal Sanitarium, was adopted unanimously.

SANTA FE'S ENERGY.
SECURES THE SONORA PASS.
(BY DIRECT WIRE TO THE TIMES.)
SALT LAKE, Sept. 21.—[Exclusive Dispatch.] The Santa Fe Railway has secured Sonora Pass, through the Sierras, and is buying the Sierra Railroad for connections which will enable it to cut loose from Southern Pacific dictation and work out its Pacific traffic without any pools with the big system. Sonora Pass is the only available route not occupied by a railroad except Beckwith Pass. Sonora is practically east of San Francisco, and the Santa Fe has outwitted the Western Pacific in securing it.

GROW UP WITH THE GOULD LINE.
ESPEE OFFICIAL ADVISES HIS NEPHEW TO COME WEST.
Revived Report that the St. Paul is to Begin Work on its Extension to the Pacific Coast Interests Wall Street—Reno Expected to be a Boom Town.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Sept. 21.—[Exclusive Dispatch.] For several days, the revised report that the St. Paul was likely to begin work at last on its projected extension to the Pacific Coast has been industriously circulated in Wall Street, together with the report that there has been a serious difference of opinion between Harriman and other interests in regard to the dividends of the Union Pacific.

In a letter to a relative in this city, a Southern Pacific official of high position, advises his nephew here to take up his residence in Western Nevada as soon as he can make the transfer. The letter says:

"I am in a position to advise you that there is every reason to believe the Western Pacific Railroad (Gould line) is soon to begin construction, paralleling the Southern Pacific practically from Ogden to Winnemucca. The road may continue on to Reno, but this is not yet settled. Possibly, from Winnemucca, the line will go directly west, cutting the Sierra either at Beckwith Pass, or a pass about eighty miles farther north. In the latter event, a spur will be built south to Reno.

"Sparks is to be the great town, and in my judgment it will, with Reno, become a second Omaha. I have your interests at heart, and speak advisedly when I say you cannot do better than locate in Western Nevada. Progress there in the next five years, because of irrigation, mining and railroads, will make a boom city somewhere between Battle Mountain and Sierra. I believe Reno will be the city."

SALT LAKE TRAINS.
RUNNING IN SIXTY DAYS.
(BY DIRECT WIRE TO THE TIMES.)
OMAHA (Nebr.) Sept. 21.—[Exclusive Dispatch.] Trains on the Salt Lake Route's new line between Salt Lake and Los Angeles will be making through trips within the next six days. The information comes from a Union Pacific official whose position puts him in close touch with the road. With the introduction of through trains on the Salt Lake Route, as the new line will be known, the distance between Chicago and the Coast will be reduced by twenty-four hours. Equipment for the road now is being contracted for, and as soon as it can be supplied, magnificent trains will be added to the service between Chicago and Los Angeles.

Some of the Union Pacific passengers will be sent to the Coast over the road, and time tables to conform with the new service are being prepared. The overland trains will not be introduced until they can be turned out of the shops in the East, which will be given rush orders to turn out the work at the earliest possible date.

NO WARSHIPS SOLD.
(BY THE ASSOCIATED PRESS—P.M.)
BUENOS AYRES, Sept. 21.—Señor Beldare, Minister of Marine of the Argentine Republic, was interviewed by the Associated Press today regarding the report that four warships purchased from Argentina had been added to the Russian Baltic squadron at Li-bau.

The Minister authorized the statement that the report was without any foundation whatever, and, further, that there was no basis for rumors of the sale of Argentine warships, although there have been numerous offers received recently through commission houses.

None of these offers, the Minister added, was entertained by his government, and no negotiations whatever are pending for the sale of vessels of the navy. All the warships of his republic are at present berthed in Argentine waters.

While the War Office advises do not indicate that Field Marshal Oyama's main armies have yet resumed their forward movement, advance detachments of Japanese are finding out the strength and disposition of Russian forces, and Japanese flanking columns are already pressing northward. KING PETER IS CROWNED.

Coronation at Belgrade an
Elaborate Event.

No Hostile Demonstration to
Mar the Occasion.

A Personal Letter from the
Czar Given Monarch.

(BY THE ASSOCIATED PRESS—A.M.)
BELGRADE (Serbia), Sept. 21.—[By Atlantic Cable.] Peter Kara-
georgievich was crowned King of
Serbia today. There were no hostile
demonstrations and no attempt
to carry out the numerous threats against
the new King's life. In the solemn
ritual of the Greek Church and in the
elaborate state procession which
preceded and followed the coronation,
the tragedy of Serbia's previous ruler
found no echo. Amid the thunder of
the saluting guns from the royal palace
and the garrison, King Alexander's
murder was, at least, outwardly
forgotten.

Here and in every garrison town in
Serbia the day was
marked by a salute of twenty-one guns
and before the sun was well up, King
Peter, on horseback, rode out from
the palace. The procession then
started for the Cathedral, through the
troop-lined streets. Behind the sol-
diers were packed dense crowds, who,
in spite of the rainy weather, stood
patiently awaiting to see the King.
The royal heralds, cavalry and life
guards—the heralds bearing the royal
standards and carriages with the
Montenegrin and Serbian Princesses,
preceded the monarch. Beside King
Peter rode his two sons, George and
Alexander. The Cathedral was
reached shortly after. There the rep-
resentatives of the foreign powers,
the Cabinet Ministers and others
had already been waiting for some
time.

As King Peter entered, the metro-
politan consecrated him and more ar-
tillery salutes were fired. The King
then took up his position under a can-
opy and the metropolitan, assisted
by many bishops and other clergy,
commenced the solemn service, the
choir singing "Thank Thee, Our
Lord."

PUTS ON THE CROWN.
After the prayer the premier and
other ministers handed the crown and
regalia to King Peter. He kissed the
crown, placed it on his head and robed
himself in the royal garments. An
artillery salute of 101 guns then an-
nounced to the people of Belgrade
that King Peter had been crowned.
It was nearly three hours before the
service was concluded and the ritual
of the church completed with King
Peter afterward signing the coronation
document, which was witnessed by
the metropolitan, the premier, the
cabinet ministers and the other
heads of state.

Wearing the crown on his head and
fully robed, the King left the cathed-
ral, remounted his horse and rode
through the crowded streets to the
palace. There, in the grand festival
hall, King Peter received the congrat-
ulations of the diplomatic corps and
others, ascended the royal throne and
once more took the sceptre and orb
in his hands. The ceremony of ren-
dering homage was then performed.
The return journey from the cathed-
ral to the palace was marked by fran-
tic cheering. There had been a gen-
eral fear that something might happen
to the ceremony and when the
people saw King Peter crowned and
riding safely he expressed relief found
enthusiastic expression.

PERSONAL LETTER FROM CZAR.
In the festal hall, the Italian Min-
ister greeted King Peter in the name
of the Triple Alliance, while the Rus-
sian Minister, who, in spite of reports
to the contrary, was present, and the
Rumanian and Greek ministers,
banded his Majesty personal letters
from their sovereigns. The clergy
then passed before the throne and
bowed to the King.
When the King sat on the throne he
took off the crown, which weighed four
kilos, but put it on again as the mem-
bers of the Skupstchina and of various
corporations passed the throne in a
long procession, though he was obliged
now and again to lift his heavy crown
and rest his head.

A partial amnesty decree has been
promulgated and the general feeling is
one of jubilation.
King Peter offered the American
Minister, Mr. Jackson, the Kara-
georgievich Star, which he presented to
all the other ministers as a souvenir of the
occasion. As Mr. Jackson was unable to
accept the star, his Majesty will pre-
sent him his photograph and auto-
graph.

RUSSIA'S KIND SENTIMENTS.
(BY THE ASSOCIATED PRESS—A.M.)
ST. PETERSBURG, Sept. 21, 8:10 A.
M.—All the newspapers comment on
today's ceremony of the coronation of
King Peter at Belgrade. They ex-
press the kindest sentiment toward
Serbia and hopes for the prosperity of
her ruler.

CENTENARY CELEBRATION.
(BY THE ASSOCIATED PRESS—P.M.)
BELGRADE, Sept. 21.—The centen-
ary of the Serbian revolution under
Kara-georgievich, grandfather of King
Peter, was celebrated this afternoon by
a grand military parade in which regu-
lar troops and volunteers participated.
The troops marched through the prin-
cipal streets in uniform and equip-
ments representing the dress of the
Serbian army at different periods since
1811. The parade was subsequently re-
viewed by the King from a balcony of
the palace.

The day's ceremonies closed with a
gaud performance at the theater, which
was attended by King Peter, the royal
family and the principal officials of the
kingdom. The streets, which were gaily
illuminated, were thronged until a late
hour.
No accident of any kind was reported
throughout the day and a great sense
of relief is expressed both by the public
and the officials concerned, that the
first coronation in Serbia, which was giv-
ing rise to the tragic circumstances surrounding the disap-
pearance of the previous dynasty, has

been anticipated with the liveliest ap-
prehension, passed off so satisfactorily.
REMINDER OF THE MURDER.

It is said that the noble milk white
steed of the King rode after leaving the
Cathedral was presented by the Sultan
of Turkey to King Peter's murdered
predecessor, and the police duty in the
palace during the past three nights was
performed by the notorious Sixth Regi-
ment.

Whether this be so or not, it is im-
possible that the regicides could have
been absent from the minds of the
spectators, and despite the regal car-
riage of the new King, he several times
during the tedious ceremony appeared
nervous and ill at ease.
The fact that Great Britain and other
powers are still unrepresented at the
Serbian court and practically ignored
the event, cast a shadow over the oth-
erwise brilliant scene. To the last
moment the Serbian populace had
hoped that Russia, Great Britain and
the other powers would send special
missions, and great disappointment was
felt over their omission to do so.

GREAT SHOW OF GAUITY.

Nevertheless, the city made a great
show of gaiety and good humor. The
streets were crowded with picturesque
clad country folk, Macedonians and
Montenegrins in gaudy national cos-
tumes, each with a belt bristling with
arms around his waist. The troops
lining the route presented a gloomy,
dirty appearance, in striking contrast
with the brilliant uniforms of their of-
ficers. The ceremonial was well ar-
ranged and impressive.
Whenever King Peter appeared he
was greeted with enthusiastic cheers
and his nervous palfrey had been
attributed to hunger, as the Greek
church prescribes the fast for the
hours before receiving communion and
during that period the King partook of
only tea and fruit.

REPUDIATED BY THE FRIARS.

HITCH IN PAY PROGRAMME AS TO
PHILIPPINE LANDS.

Augustinians Request that Money
be Handed Over in Drafts on Lon-
don Instead of Staying in the Is-
lands—War Department Not a
Party to the Controversy.

(BY THE ASSOCIATED PRESS—A.M.)
MANILA, Sept. 21.—[By Pacific Ca-
ble.] The Augustinian Friars have re-
pudiated the agreement made in Rome
between the late Pope Leo, the late
Archbishop Gudi, Apostolic delegate
in the Philippine Islands, and former
Gov. Taft, that the money paid by the
United States in the purchase of the
Friars' lands should remain in the is-
lands, and have requested that the
payments to them be made in drafts
on London.

"AS YOU LIKE IT."

(BY THE ASSOCIATED PRESS—P.M.)
WASHINGTON, Sept. 21.—It is said
at the War Department that the de-
partment is not a party to any con-
troversy respecting the method of pay-
ing for the Friars' lands in the Philip-
pines, and that the money should be
paid in drafts on London, as the place
of payment, whether in Manila
or in Europe, lies between the au-
thorities of the Vatican and the Friars',
the latter being the titular owners
of the lands. The money, of course, the
officials would like to see the money re-
alized in the land sales into their
new field of activities.

The War Department has arranged
to have this particular sum of \$2,000-
000 involved in the transactions with
the Augustinians placed to the credit
of the treasurer of the Philippine Is-
lands, in the Bank of England, and he
will issue his warrant for the amount,
which will be good in either London or
Manila.

FIRE ON THE MINNESOTA.

Spontaneous Combustion in Coal
Causes Excitement in Hold of
Huge Steamship.

(BY THE ASSOCIATED PRESS—P.M.)
NORFOLK (Va.), Sept. 21.—Fire
broke out in the hold of the Steamship
Minnesota, of the Great Northern line,
while the vessel was loading coal for
her bunkers at Lambert's Point pier
here today, but the flames were extin-
guished with only trifling loss. The
fire was caused by spontaneous com-
bustion in the coal that had been loaded
at New London and was discovered by
an engineer late this afternoon.
The Minnesota, which is bound for
Seattle, carries a cargo of six thousand
tons of anthracite loaded at Philadel-
phia.

The fire caused great excitement in
the shipping district and was only ex-
tinguished after quick work by the
ship's fire crew.

GET NEWS ON THE TRAIN.

The Union Pacific Will Keep Its
Patrons Passing Over
Plains Posted.

(BY THE ASSOCIATED PRESS—A.M.)
OMAHA (Nebr.), Sept. 21.—Be-
ginning next week, the Union
Pacific Railroad will start issuing
a news service for the benefit of
its passengers on the overland
limited trains. This news ser-
vice, which is the first thing of the
kind ever attempted by a rail-
road, will be sent out at noon
and at 4:30 o'clock in the after-
noon and posted in typewritten
form in buffet cars. Later, it is
stated, the service will be ex-
tended to other through pas-
senger trains on the system.

All the news of importance
will be transmitted by the com-
pany over its own wires, and
will be delivered at scheduled
points.

PROJECTS OF RECLAMATION.

Progress on This Coast Has
Been Gratifying.

Surveys of Irrigable Lands
are Being Rapidly Pushed.

Large Tracts in California
Restored to Entry.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, Sept. 21.—[Exclu-
sive Dispatch.] According to Chief
Engineer Newell, who has returned
from the Coast, the progress made by
the engineers of the reclamation ser-
vice in California is most gratifying.
Work on the Yuma project has con-
sisted principally in making plans and
estimates on canal lines. As early as
August 27, holders of 75 per cent. of
the area of the present lands below the
canals and inside the levees had signed
the contracts necessary prior to adver-
tising for bids for construction. When
all the lands subject to the Reclama-
tion Act, for instance, the Indian reser-
vation included, this percentage
will be nearly sufficient.

Surveys are being made by Horse
Fly and Clear Lake reservoir sites and
a topographic survey of Klamath Riv-
er near Reno, where it is possible to
lower the channel and drain the lower
Klamath region. A determination of
the area of irrigable lands and surveys
will be rapidly pushed, in order to de-
termine the possibility of the project.
"During August, J. C. Clausen of the
reclamation service, who has charge
of the Owens Valley project, completed
an examination of all small mountain
lakes along the eastern side of the Si-
erra Nevada range, tributary to Owens
Valley. The most promising of these
have been surveyed sufficiently to com-
pute the capacities of reservoir sites.
A map of irrigated lands in the val-
ley is being revised, for the purpose
of making a distinction between lands
with sufficient water supply and those
with insufficient supply, and a study
is being made of a large percentage of
land that, through irrigation, has be-
come swamp or alkali.

Another inspection was made of
Long Valley dam site. As the use of
this reservoir site is entirely depend-
ent upon bedrock conditions, a thor-
ough exploration with a diamond-drill
machine will be made. If the reservoir
is found feasible, a detailed survey will
be made in the valley. It is believed
this project would supply water to
from seventy-five to one hundred
thousand acres, 40,000 acres of that
amount now being irrigated in the val-
ley.

RESTORED TO ENTRY.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, Sept. 21.—[Exclu-
sive Dispatch.] The Secretary of the
Interior has ordered the restoration to
entry of large tracts of public lands in
California that were temporarily with-
drawn with a view to enlarging forest
reserves. These lands were examined
by the Forestry Bureau and found un-
suited for forest reserve purposes.
Some are agricultural in character,
some grazing lands, but considerable
area is valuable timber lands.
The reason timber lands are to be
turned back to the public domain is
because they are isolated tracts, lo-
cated among lands now in private
ownership. It would not be practicable
to reserve them without reserving the
adjoining private lands, and this policy
is not favored.

In restoring these lands to entry, the
Interior Department is adopting a new
policy. These and all other lands
hereafter restored to entry will become
subject to settlement immediately, but
will be advertised for ninety days be-
fore they become subject to entry.
This is to give everyone an equal
chance to the newly-opened lands and
to prevent anyone getting unfair ad-
vantage. An exact description of the
land is withheld from the public for
three months, but will probably be
given out in a few days.

HELPING HOMESTEADERS.

(BY THE ASSOCIATED PRESS—P.M.)
WASHINGTON, Sept. 21.—In the in-
terest of fairness to prospective home-
steaders throughout the United States,
Secretary Hitchcock today approved an
opinion by the Assistant Attorney-
General for the Interior Department
sustaining the contention of the Com-
missioner-General of the Land Office,
that public lands which have been
temporarily withdrawn from settle-
ment and later restored to public
domain can be filed upon for settle-
ment. The decision establishes a set-
tled policy upon the part of the Gen-
eral Land Office. The new policy, it
is said, will give an equal chance to
locate upon them, and prevent any
undue advantage being given to per-
sons living in proximity to them, and
having knowledge that they would
be restored to the public domain.

"FIGHTING BOB" FAVORED.

(BY THE ASSOCIATED PRESS—A.M.)
WASHINGTON, Sept. 21.—Numerous
additional applications have been re-
ceived by the Assistant Secretary of
the command of the North Atlantic station
which will be vacant on the retirement
in March, 1906, of Rear-Admiral Barker.
Although no decision has yet been re-
ached, there is authority for the
statement that the name of Rear-Ad-
miral Hobley D. Evans is now promi-
nently under consideration. Admiral
Evans is now president of the Light-
house board.

SMALL KANSAS TOWN BURNS.

KANSAS CITY, Sept. 21.—The town
of Oakley, Kan., a small place about
20 miles west of here, on the Union
Pacific Railroad, has been almost
destroyed by fire. The fire originated in
the Tennessee Hotel, and spread rap-
idly to other buildings. Sixteen busi-
ness buildings were burned, only one
store being left standing. Nobody was
injured, but some of the guests of the
Tennessee Hotel had narrow escapes.
Loss \$75,000. The origin of the fire is
unknown.

WAR NEWS AFTER MIDNIGHT.

LONDON, Sept. 22.—During the
scarcity of news from Mukden, at-
tention has again reverted to Port Ar-
thur.

According to the Morning Post's
correspondent, two of the Russian
forts the Japanese are said to have
occupied in the vicinity of Shushu-
ying are Nantail and Chang Kiatsu,
and their value to the besiegers con-
sists in the former being close to the
Antushan forts and the latter to the
Dragoon Hill forts, the object of the
Japanese being to thrust a powerful
wedge into the gap between the east-
ern and the western fortifications
through which the railway passes to
Port Arthur from the north. Antushan
overlooks this gap and though the
Japanese failed to penetrate it
sufficiently in the assault of three
weeks ago, the persistency with which
they returned to the charge is held to
prove that the taking of the gap is as
essential to the Japanese plan of cam-
paign as it will be to a decisive victory.

A mass of more or less reliable re-
ports emanates from Chefoo and else-
where. According to the Daily Mail's
Chefoo correspondent, the Japanese at
Port Arthur have mounted additional
gun positions captured in the last
assault. An attack from the sea, the
correspondent says, is now less effec-
tive, owing to the continual high angle
fire having seriously affected the
battery of the blockading fleet.
The correspondent Tien-tsin of the
Daily Telegraph says that Japa-
nese gunboats have left Yinkow pre-
liminarily to a renewed, and it is said,
a final attack on Port Arthur.

The Daily Telegraph's Chefoo cor-
respondent says that Japanese of-
ficial circles thought that the fall of
Port Arthur would be coincident with
the Mikado's birthday, November 3,
but that they now admit it has been
postponed until spring.
"It is significant," the correspondent
adds, "that winter quarters are being
prepared at Dainy, when Newchwang
is frozen. Dainy will be the main base
of operations."

NOGHI'S NEW SCHEME.
It is reliably stated that Gen. Noghi,
in command of the Japanese forces
about Port Arthur, is preparing a
new scheme of attack, involving an
assault not upon the whole line but
upon the commanding positions, it be-
ing essential to speedily secure more
forts in order to enable the Japanese
to take their present advantage.

Foreign correspondents and at-
taches are under strict supervision
and are not allowed to witness impor-
tant movements. A Russian merchant
named Kratz escaped from Port Ar-
thur and was captured by the Japa-
nese. Afterward he was liberated and
was told by the Japanese officers that
he was fortunate in escaping because
a heavy bombardment was imminent.

The Daily Telegraph's Shanghai cor-
respondent, cabling under date of
September 20, says:
"A general attack from three points
on Port Arthur was resumed yester-
day, the fleet cooperating."
From the numerous conflicting
statements in the newspaper dis-

patches it is impossible to get an idea
of Port Arthur's resources in ammu-
nition and food. It is alleged that for-
eign refugees are purposely given sup-
plies of good clothes and food in order
to deceive the outside world.
No additional news has been re-
ceived here regarding the position of
affairs at Mukden.

The correspondent says that all of
the valuables from the Chinese Yamen
at Mukden have been sent to Peking.
The Japanese troops, in their thin
khaki, he says, are feeling the cold se-
verely.
It is almost impossible to cross the
country from Simsimtsu to Mukden,
owing to Chinese bandits.

LESSER'S DEMAND.

Post's Shanghai correspondent tele-
graphs that native newspapers assert
that M. Lessar, the Russian Minister
at Peking, demands that China shall

(BY THE ASSOCIATED PRESS—P.M.)
BERLIN, Sept. 21.—Col. Gaedke,
correspondent of the Tageblatt in the
East, in a letter from Liao Yang
dated August 22, and which reflects
headquarters talks, says it is antici-
pated that from 348 to 360 battalions
of infantry will have reached Man-
churia by the middle of December.
Col. Gaedke puts the number of the
Russian forces in Southern Manchuria
at the beginning of the war at 22,000.

IRRITATION AGAINST BRITAIN.

(BY THE ASSOCIATED PRESS—P.M.)
ST. PETERSBURG, Sept. 22, 7:30
a.m.—The feeling of irritation in Rus-
sia regarding Great Britain's course
in Tibet is displayed in the Novoe
Vremya's remarks regarding the
statement made in the House of Com-
mons by Mr. Brodick, Secretary of
State for India, that "the best way
of preserving peace is to be prepared
for war, and England's army on the In-
dian frontier is now ready."
In the course of a long editorial ar-
ticle, the Novoe Vremya declares that
a majority of Great Britain's interna-
tional successes were won not by
fighting, but by bluff. This, the pa-
per declares, was especially the case
in 1870, when Great Britain succeeded
in closing the Dardanelles to Berlin,
instead of via Constantinople. The ar-
ticle concludes: "This sort of diplo-
matic intimidation cannot continue
indefinitely. In reply to Brodick's
words, we can quietly and confidently
say we are ready, too."

RUSSIANS RECONNOITER.

(BY THE ASSOCIATED PRESS—P.M.)
GEN. KUROKI'S HEADQUARTERS

noitering along the Japanese front
with a large force of cavalry, sup-
ported by guns.

Yental station and threw a few shells
at the station.

They continued the cannonading at
intervals all day. The Russian force on
the Mukden road extends from Shu-
lin, eight miles north of Yental, to
Taotaitai, five miles northeast.

REORGANIZE THE WORLD.

Prof. Haeckel Says the Free Thinkers'
Congress Affords the Opportunity
to Tell How.

(BY THE ASSOCIATED PRESS—P.M.)
ROME, Sept. 21.—[By Atlantic Ca-
ble.] Prof. Haeckel of Jena University,
who brought the greetings of the Ger-
man Free Thinkers to the Congress of
Free Thinkers, which assembled here
yesterday, caused printed copies of his
report to be circulated at today's ses-
sion of the congress of Free Thinkers.
He says the congress offers a favorable
occasion to express the ideas of sci-
entists desiring to reorganize the world
on the basis of science, instead of dog-
mas, adding that in the middle of Oc-
tober there will appear at St. Louis an
international conference for the con-
ception of a progressivist world, organ-
ized by the Federation of American
Free Thinkers, having the same pro-
gramme and objects as the present con-
gress at Rome.

Prof. Haeckel regrets that he is un-
able to gratify his desire to partici-
pate in the St. Louis congress, but be-
ing requested to contribute his views to
the congress, he presents his prin-
ciples in writing.

PATTEN UNLOADS WHEAT.

Dumps Four Million Bushels on Chicago
Board at Lower Prices Than
He Expected.

(BY DIRECT WIRE TO THE TIMES.)
CHICAGO, Sept. 21.—[Exclusive Dis-
patch.] James Patten, one of the
original bulls in May Wheat, started
the Board of Trade today by unloading
fully 4,000,000 bushels at prices far be-
low that which it would have brought
had he let go when high-water mark
was reached. Offerings were eagerly
snapped up by Armour and Lichten-
berg, and caused the unparalleled situa-
tion on Chicago of not even resulting in
the slightest flurry.
Patten predicted that wheat would
reach \$1.00, when the bull movement
began, and when the price went to
\$1.18, a short time ago and he could
have unloaded at a handsome profit,
he held on with bulldog tenacity. To-
day, however, with May wheat ruling
at from \$1.10 3/8 to \$1.11 1/2, Patten
dropped half of his holdings into the
market. He is thought to have fully
4,000,000 bushels more in reserve.
"Patten has been dislodged," could
be heard on all sides on the board.
"No wonder," remarked an old-
timer. "With the Armour guns leveled
at him and rapid firing kept up
from day to day."

Wheat closed 3/4 to 1/2 lower.

cialist, who said tonight that Mrs.

ONE DENVER FIREMAN DEAD
AND THREE OTHERS DYING.
Unconscious of Danger, They
Fought Small Blaze, but Later Be-
came so Ill that When Responding
to Another Alarm They Lay Down

(BY THE ASSOCIATED PRESS—A.M.)
DENVER, Sept. 21.—Four fire-
men are in a precarious condition from
inhaling fumes of nitric acid, a cargo of
which was burst by a bolt of light-
ning which started a fire in the etch-
ing rooms of the Post Printing and
Supplying Company.
Truckman John McLaughlin died this
afternoon at the Emergency Hospital.
Truckman Sherman B. Wilcox has
double pneumonia and is in a very crit-
ical condition.
Lieut. Doloff is in almost as serious
a plight.
Capt. Charles Eymann is very se-
riously ill.
Nine other firemen are also suffer-
ing greatly from the effects of the
fumes. They are acting Chief John Du-
lange, Lieut. Vincent Davidson, Truck-
man Edward Hollenhorst, Frank F.
Lunt and William Alward; Pipefitter
John Ryan, Emil Normile and William
H. Grainger, and Driver William Lewis.
Police Surgeon Duin and Prewitt,
assisted by other physicians and nurses
are working assiduously to save the
lives of the firemen. Most of whom
are in the Emergency Hospital. Acting
Chief DuLangue is threatened with
pneumonia.

The fire was one of the smallest
fought by the department for a long
time. It began in the etching room,
a place of a size usually handled with-
out danger and little trouble. Unaware
of the great danger, the firemen rushed
into the room and when aware of the
danger from the acid, they refused to
retreat until the flames had been sub-
dued.
At the time of the fire, last evening,
none of the men felt the effects very
severely, and all returned to their
posts of duty. But in the night the
terrible action of the fumes on their
lungs began to make itself manifest,
and after a few hours they were all
seriously ill.

FREDERICHSHAGEN, Sept. 21.—
(By Atlantic Cable.) The funeral service
over the remains of Prince Herbert
Bismarck, who died September 18, took
place today. It was a simple service,
although it occurred in the presence
of a distinguished company including
representatives of the German sov-
ereign, the diplomatic corps, and the
German public service. Chancellor Von
Buelow, who was always a personal
friend of the late Prince, was pre-
sent. Gen. Von Hahnke, chief of
the Imperial Military Cabinet, repre-
sented the Emperor.

The coffin was borne to the mau-
soleum by sixteen soldiers in old Span-
ish costume, such as formerly was
worn by the servants of the Hamburg
Council.

LETTER OF
FAIRBANKS.He Accepts Campaign Issues
With Confidence.The President Has Carried
Out McKinley's Policies.The Provisions of Platform
Meet With Approval.

(BY THE ASSOCIATED PRESS-P.M.)

INDIANAPOLIS (Ind.) Sept. 21.—
The letter of United States Senator
Fairbanks, accepting the Republican
nomination for the Vice-Presidency,
which is made public today, is as fol-
lows:The Hon. Elihu Root, chairman of
the National Committee:My dear Sir: In accordance with
the promise made when you formally
notified me of my nomination for vice-
president, I avail myself of this op-
portunity to submit to you, and
through you, to my fellow-citizens,
some further views with respect to
the questions in issue before the peo-
ple.The principles which are so frankly
and felicitously expressed in the plat-
form adopted by the Republican Na-
tional Convention meet with my heart-
iest approval. In the main they have
been subjected to the test of actual
experience, and have been found to
be well suited to our industrial and
national needs. They have brought us
to a high state of material develop-
ment, and have made the nation's
name respected among the powers of
the earth.The utterances of political parties
must be interpreted in the light of
the practical construction which they
have put upon them, which interested
parties. It is not alone what they
say, but what they will do, which
counts in determining their capacity
to administer public affairs. We
have had two administrations in the
last seven years which have been
governed by the same policies. We
have seen the trade reports in vain
discover when the one ended and
the other began. Both were obliged
to make vast expenditures for in-
creasing public works. The rapidly
expanding needs of the government
must be met. The national
economy must keep pace with our
national growth, yet always with due
regard to the principles of sound econ-
omy in public expenditure. We have
been no parsimonious policy on the
one hand nor indulged in extravagance
on the other. We have measured the
public expense by the public necessity.The convention did well in its hearty
commendation of the administration
of President Roosevelt. This is sharply
disputed by the opposition. We ac-
cept the issue with confidence. The
President assumed the responsibility
of Chief Executive with a pledge to
carry out the policy of his beloved
and honored predecessor. He kept the
faith of President McKinley, com-
mended of statesmen of eminent ability,
in whom the country placed entire
confidence.He carried forward the policy of
his predecessor faithfully and suc-
cessfully. The pledge has been kept
entirely. The promise has been ful-
filled. Peace and order have been
maintained. Domestic and foreign
trade have increased, and rela-
tions of amity have been preserved
with foreign powers.The foreign policy of the administra-
tion has been conservative, just and
firm, and has maintained the peace
of the world. Time and events have
given us a larger place in international
affairs. While we have enlarged our
foreign commerce, we have increased
our prestige abroad, not with the
sword, but through the peaceful agency
of enlightened diplomacy.Thirty treaties have been concluded
and proclaimed, and stand to the credit
of the administration. Some of these
are of far-reaching importance. Among
the number are the Hay-Pauncefote
treaty, superseding the Clayton-Bulwer
convention, which stood in the way of
the construction of an isthmian canal;
the Panama Canal treaty, the Alaskan
boundary treaty, and the new commercial
treaties with China and with Cuba.Events in the Far East suggest the
wisdom and necessity of a continuance
of the present foreign policy. We have
maintained exact neutrality between
Japan and China. At the beginning
of the war between them, the ad-
ministration, limiting the zone of
hostilities, tends to preserve the
"open door" in the Orient, so important
and so much desired in the expansion
of our commerce. It is the policy of
the administration to protect the
soundest national prudence, to
settle and remove by treaty, so far
as possible, those international differ-
ences which might lead to future fric-
tion.We favor the adjustment of inter-
national disagreements by an appeal
to reason, rather than to arms.
The majority of the questions which
arise between nations may, without
prejudicing the national honor, be
submitted to arbitration. The ad-
ministration of President McKinley,
and President Roosevelt, have been
entirely to great credit for being
first to invoke its jurisdiction in the
settlement of the Hainan Island case.Our relations with the world were
never better. We have availed all en-
lightening alliances, and in the language
of the eminent Secretary of State, "We
are without an ally and without an
enemy."The convention wisely declared in
favor of "protection which guards and
develops our industries," and that
"the measure of protection should always
be at least equal the difference in the
cost of production at home and
abroad."This principle was embodied in the
platform of the convention which first
was continued to be one of the cardinal
principles of the Republican party dur-
ing the forty-four years which have
elapsed since then. It has been incor-
porated into the national law, and has
become the foundation of our indus-
trial system. It has been regarded by
the Republican party as a reasonable
and appropriate exercise of the legis-
lative power when imposing duties upon
foreign manufactures in order to
develop our industries. This principle
is dictated by a due regard for our
national enterprise and industry, and
is upon the highest consideration of
national interest.The Democratic convention which
assembled at St. Louis has been
advised to protect our industries by
the many to enrich the few, and has
proposed a "revision and gradual reduc-
tion of the tariff."The issue is thus distinctly made. It
is by no means a new one, for while
the Republican party has uniformly
adhered to the policy of protection, the
Democratic party has been consistent
in its opposition. It has held to thedoctrine of a revenue tariff, and during
all the years of the contest has
maintained that the protective system
was opposed to good morals, in con-
travention of the Constitution and in
violation of sound economics. The ob-
jections which are now urged against
it are only a repetition of those which
have found utterance for many years.
The difference between the parties is
radical and fundamental. It involves
the principle of protection, and not
simply the measure of the duties to be
imposed.A revision of duties should be made
only when conditions have so changed
that the public interest demands their
alteration, and they should be so re-
vised as to preserve and not destroy
the protective principle. The
revision and reduction by those
who regard the tariff as a robbery
must weaken serious apprehension
among all whose capital is employed
or who are engaged in labor in the
various enterprises throughout the
country, which depend in some degree
upon the maintenance of the pro-
tective system. A revision of the
tariff along revenue lines means the
increased importation of the prod-
ucts of foreign manufacture which come
into competition with our domestic
production. It means a loss to the
American wage earners and to Amer-
ican capital. This is, therefore, not a
theoretical question which is presented
to them, but is one of immediate and
practical moment. It can be settled
by them, and by them only.The Republican convention did well
not only to pledge anew our fidelity
to the gold standard, but to declare
its purpose to uphold the integrity
and value of our national currency.
There should be no equivocation or
doubt as to our inflexible purpose, not
only to maintain the gold standard,
but to keep all silver and paper cur-
rency at a parity with it.The assumption that the gold stand-
ard is "irrevocably established" does
violence to the law. It was estab-
lished by an act of Congress, but the
Congress has the power to repeal that
act at any time. It is no more
irrevocably established than are our
tariff schedules. The one may be
changed as readily as the other. Sound
money is so vital to our welfare, so
important to our industrial develop-
ment, that we cannot afford to open
our eyes or negative friends know that
we abate nothing of our determination
to uphold and defend it.Since 1896, we have improved the
system as well as increased the volume
of our currency. We have now in cir-
culation \$2,111,125,000, or \$88,942,000
more than we had seven years ago.
The increase has not been due alone
to the larger yield of gold, for \$262,-
632,529, or nearly 20 per cent of the
increase, is composed of silver and na-
tional bank notes, which under the Re-
publican policy are essentially the
equivalent of gold.If in the future the exigencies of
business, which no wisdom can now
foresee, should make additional mon-
etary or financial legislation advisable,
the Republican party may be intrusted
to enact it along rational lines.PRESIDENT AND PANAMA.
The President's course in Panama
merits the most generous approval. He
dealt with a delicate and difficult
situation clearly within our national
rights in such a manner as made pos-
sible the early completion of the
isthmian canal, which has long been
demanded in the interest of our com-
merce and the national defense.He concluded the negotiations with
Great Britain for the abrogation of the
Clayton-Bulwer treaty, and secured a
treaty with the Republic of Colombia
for the requisite rights and franchises
for the construction and opera-
tion of the Panama Canal. The
Colombian government, however, was
contemptuously refused by the
people of Panama, who declared their
independence. The President, acting
within the limits of his executive
authority, promptly recognized their in-
dependence.He negotiated a treaty with
Panama, whereby the United States
obtained the necessary rights and fran-
chises for building and operating the
canal.When the insurrection occurred upon
the isthmus, the President safeguarded
American interests. He acted promptly
but deliberately, prudently and firmly
not unlawfully. He usurped no
authority. He only exercised that ex-
ecutive power which is vested in him
by the constitution, and which his
predecessors had employed under
similar circumstances. If he had failed
to appreciate our rights or to act
firmly and promptly, blood would have
been shed and the rights of Amer-
ican citizens would have been sacri-
ficed, and the construction of the canal
would have been indefinitely delayed.The platform of the present admin-
istration, composed of eminent en-
gineers and men of practical experi-
ence to undertake the work of con-
structing the canal, was a practical
achievement of the new century.
The completion of this great work
should be left to the administration
which has done so much to carry it
forward against formidable obstacles
abroad and vexatious opposition at
home.The administration in the Philippines
has been dictated by a broad sense
of duty. It has been a conservative
of our national ideals, but has been
in conformity with the best traditions
of the Republic. The archipelago came to the United
States as the result of a war, and it
became the duty of the administration
to enforce the law there as elsewhere,
to maintain the national sovereignty
and to inaugurate civil government.The President, however, had ceased
to exercise his executive authority.
President McKinley, who had ex-
pressed our purpose, said he:
"No effort will be spared to build
up the waste place obliterated by war,
and by long years of mis-governance.
We shall not wait for the end of strife
to begin the beneficent work. We
shall continue as we have begun, to
open the schools and the churches, to
set the courts in operation, to foster
industry and trade, to create, and
in every way in our power to make
these people whom Providence has
brought within our jurisdiction, feel
that it is their liberty and not our
power, their welfare, and not our gain,
we are seeking to enhance. Our flag
has never won our love by any com-
munity but in blessing. I believe the Phil-
ippines will not lose its gift of benediction
in its world-wide journey to their shores."President Roosevelt has continued the
work in the same just and generous
spirit. He has not only maintained
the military rule which was quickly suc-
ceeded by the civil authority. The people
of the islands have been invited as fast
as possible to participate in the work
of government. The judicial system
has been improved, corruption has been
driven out, and the people have been
enjoying a large measure of self-gov-
ernment.Congress has authorized a representa-
tive assembly to be chosen in due
time by the people of the islands. The
habit of self-government has been
forward as heretofore, inspired by the
same lofty purpose which has charac-
terized the administration of Presi-
dent McKinley and President Roose-
velt. We may safely trust to the future
to deal with the Philippines in a manner
consistent with the highest national
interest, and with the duty and honor
of the United States.The people of the islands have had
abundant evidence of the exalted pur-
pose of the United States. The various
degrees of civilization among them,
their unfamiliarity with civic duties,
make it inadvisable to indulge in any
declaration as to the future policies.
The people of the Philippines do notMONEY QUESTION.
The convention very properly de-
clared that "it is the duty of the Re-
publican party to uphold the gold
standard." There is no more important
duty than to maintain the stability and
character of the money of the coun-
try. Their manifold exchanges
should be effected in a currency as
free from blemish as the national in-
dignity. The Republican party has
been essentially the guardian of the
financial credit of the country, and the
steadfast supporter of a sound cur-
rency. It has maintained the national
credit and preserved the soundness of
our monetary system against perni-
cious and powerful opposition.The money question has seemed to
be settled at various times, but thecontest has been revived by the en-
emies of sound money whenever they
have thought that they might be suc-
cessful. We should not relax our
vigilance in upholding the integrity of
our currency so long as a consid-
erable element of our country are at war
with it. When Democratic candidates
cannot hope to win preferment in a
national election without industri-
ously concealing their monetary
views, and when Democratic national
and State conventions dare not declare
their faith in the value of the gold
standard, the hour has not arrived
when the forces of sound money should
disband and the gold standard be
abandoned.We not only established the gold
standard, but we provided such safe-
guards as will maintain our silver and
paper currency at a parity with it.
But all of this may be changed at
any time by a hostile Congress, or
endangered by an unfriendly Secre-
tary of the Treasury. Our past ex-
perience warns us that it is only a
question of time when those who are
always opposed to sound monetary
policy will again seek to overthrow
it.The Republican convention did well
not only to pledge anew our fidelity
to the gold standard, but to declare
its purpose to uphold the integrity
and value of our national currency.

Our opponents say the Philippine
policy does not pay. They should not for-
get that the United States did not
go to war with Spain for dollars and
cents. They should remember that
when it comes to a matter of duty, open
enemies or negative friends know that
we abate nothing of our determination
to uphold and defend it.The development of the country
during the last forty-four years is a
complete vindication of the virtue and
efficacy of the protective system. The
benefits have been diffused through all
sections of the country and among all
classes of people. It has enlarged our home
market until it has become the great-
est in the world. This we should not
unwisely surrender. We have be-
lieved to be a national policy to
preserve the American market for
American producers and to secure to
our workmen an increased wage
scale.In 1860 the value of our exports and
manufactures was \$40,245,892. Twenty
years later it was \$102,456,015, and the
year 1882, \$145,423. The pretension of its
opponents that the protective tariff is
a burden upon the people is thus denied by
actual results. In considering the ef-
fect of the respective tariff policies of
the Republican and Democratic parties,
we are fortunately able to con-
sult past experience. What a revenue
tariff will accomplish we know, for
we have hitherto seen how it has ar-
rested industrial development and em-
barrassed enterprise to the injury of
both labor and capital. Neither
escapes its blighting effects.Commercial reciprocity with foreign
countries, consistent with the prin-
ciples of protection, has long been one
of the well recognized policies of the
Republican party. The present admin-
istration, in the face of serious Demo-
cratic opposition, secured a treaty of
reciprocity with Cuba, which promises
to give us control of a large share of
the commerce of that island.Both Presidents McKinley and
Roosevelt attempted to negotiate a
treaty of reciprocity with Canada.
That subject, together with the Alaskan
boundary and other matters, were
submitted to a joint high commission
for consideration; but the differences
which arose between the American and
British commissioners with respect to
the boundary made it impossible for
the commission to agree upon any of
the remaining subjects submitted for
its determination.The American commissioners desired to
remit the boundary dispute to the
two governments and to proceed with
the consideration of all other ques-
tions, including reciprocity, but the
British commissioners declined to do so.
Peace and order have been main-
tained. Domestic and foreign
trade have increased, and rela-
tions of amity have been preserved
with foreign powers.The foreign policy of the administra-
tion has been conservative, just and
firm, and has maintained the peace
of the world. Time and events have
given us a larger place in international
affairs. While we have enlarged our
foreign commerce, we have increased
our prestige abroad, not with the
sword, but through the peaceful agency
of enlightened diplomacy.Thirty treaties have been concluded
and proclaimed, and stand to the credit
of the administration. Some of these
are of far-reaching importance. Among
the number are the Hay-Pauncefote
treaty, superseding the Clayton-Bulwer
convention, which stood in the way of
the construction of an isthmian canal;
the Panama Canal treaty, the Alaskan
boundary treaty, and the new commercial
treaties with China and with Cuba.Events in the Far East suggest the
wisdom and necessity of a continuance
of the present foreign policy. We have
maintained exact neutrality between
Japan and China. At the beginning
of the war between them, the ad-
ministration, limiting the zone of
hostilities, tends to preserve the
"open door" in the Orient, so important
and so much desired in the expansion
of our commerce. It is the policy of
the administration to protect the
soundest national prudence, to
settle and remove by treaty, so far
as possible, those international differ-
ences which might lead to future fric-
tion.We favor the adjustment of inter-
national disagreements by an appeal
to reason, rather than to arms.
The majority of the questions which
arise between nations may, without
prejudicing the national honor, be
submitted to arbitration. The ad-
ministration of President McKinley,
and President Roosevelt, have been
entirely to great credit for being
first to invoke its jurisdiction in the
settlement of the Hainan Island case.Our relations with the world were
never better. We have availed all en-
lightening alliances, and in the language
of the eminent Secretary of State, "We
are without an ally and without an
enemy."The convention wisely declared in
favor of "protection which guards and
develops our industries," and that
"the measure of protection should always
be at least equal the difference in the
cost of production at home and
abroad."This principle was embodied in the
platform of the convention which first
was continued to be one of the cardinal
principles of the Republican party dur-
ing the forty-four years which have
elapsed since then. It has been incor-
porated into the national law, and has
become the foundation of our indus-
trial system. It has been regarded by
the Republican party as a reasonable
and appropriate exercise of the legis-
lative power when imposing duties upon
foreign manufactures in order to
develop our industries. This principle
is dictated by a due regard for our
national enterprise and industry, and
is upon the highest consideration of
national interest.The Democratic convention which
assembled at St. Louis has been
advised to protect our industries by
the many to enrich the few, and has
proposed a "revision and gradual reduc-
tion of the tariff."The issue is thus distinctly made. It
is by no means a new one, for while
the Republican party has uniformly
adhered to the policy of protection, the
Democratic party has been consistent
in its opposition. It has held to the

Methodist Conference Under Way at Pasadena.

Book Agent Jennings Tells of the Concern.

First Methodist Church of Pasadena was crowded yesterday morning at the opening of the Southern California conference, and the first roll call showed the presence of 135 out of the 160 ministers in the conference. Many others enrolled later in the day.

Bishop Luther B. Wilson called the conference to order promptly at 10 o'clock, at the close of the communion service, and made a brief address to the preachers which was frank and brotherly. He is a much younger man in appearance than any bishop who has presided in Southern California for many years, but he has taken care that no imaginary stone wall is erected be-

JENNINGS'S HIT.

Dr. H. C. Jennings of Cincinnati, one of the Book Agents, told the preachers something about the business of the Book Concern. Among other things

was the statement that a certain sum of money had for some years been producing \$10,000 a year for the superannuate fund, but it was thought wise to invest it in a building in Chicago, and it is now producing \$18,000 a year. The point to this statement is that a year or two ago the Southern California Conference was "wiping up the floor" with the Book Committee on account of the action of this self-same building, and declaring that it was better if they gave more money to the superannuates instead of erecting big buildings about the country. The wisdom of the step is now apparent and Dr. Jennings got applause yesterday where twelve months ago he would have heard a groan.

He was further applauded when he announced that this year the superannuate fund would receive from the publishing house \$10,000, as against \$7,500 last year. Dr. Jennings declared that in Dr. Jennings' reports the Book Concern of the Methodist Episcopal Church stands by the side and on a par with Marshall Field, the Standard Oil Company and the New York Central Railroad.

He urged all the preachers to stop sending their orders for supplies to the eastern houses, but to send them to the depository in San Francisco, instead, as it was the determination of the Book Concern to risk money and reputation in an effort to make the Coast branch pay its way. Dr. H. W. Waltz represents the latter house at the conference.

GOD MADE THEM WAIT.

Dr. Robert Forbes of Philadelphia, the energetic and eloquent secretary of the Board of Church Extension, didn't want to appear selfish in the interest of his special pet board, so he gave the preacher the following:

"The most sacred cause to which you

Men Who Figure in the Conference.

ever gave a dollar is the cause of conference claimants. If you can't send money to the heathen let them wait; God has made them wait a long time, and they can wait a little longer, while you care for the faithful old preachers.

"The Board of Church Extension has helped to build 13,500 churches in this country, and 330 of them have been in California; just remember that when making your contributions for church extension. Bishops and secretaries and presiding elders may flatter you, but I submit that a little less than 12 cents per member is not enough for people who have received so much, and who live under these glorious skies and amidst these beautiful flowers. A dollar for missions and 12 cents for church extension is a fair division; your missionary money will be wasted unless you can build a little church to shelter your little congregation. Missions and all the other benevolent boards lean upon the Board of Church Extension."

DAYLIGHT HOLD-UP.

Three Youngsters Flourishing Knife Rob Another of Tennis Shoes in Alley.

A shocking robbery in broad daylight took place yesterday in the rear of the Angelus Hotel.

The robbers are still at large. The police have a description of only one of them. He had freckles and a snub nose.

The hour was noon. A man named Guy Robinson, aged 13, living at No. 425 South Grand avenue, came along the alley carrying a brand new pair of tennis slippers in his coat pocket.

Suddenly three desperadoes stepped out to confront him. Mr. Robinson estimates their ages at 12, 13 and 14.

They took away his tennis shoes and sternly ordered him to march on.

One of them pulled out a jack knife with a blade broken off short and the other blade nearly as good as new.

Flourishing this, he ordered Mr. Robinson to march straight on and not look around under pain of being stuck with the knife.

Mr. Robinson, he "done so."

Suit for Ten Cents.

Henry Haughey, who runs the mail wagon between Fanningburg and Sharpburg, sued a merchant along the route for 10 cents the other day. The alleged debt was for carrying a package to the merchant. After the suit was filed it was compromised before trial. (Mayville Bulletin.)

Commercial Bank of Santa Barbara.

The above bank has lately moved into its new banking room, which is conceded to be one of the finest in the West. Especially is this true of the interior equipment.

The counter is made of beautiful marble. The screen-work is of bronze and is beautiful in design and construction.

The President when placing his order, did so with the idea that a bank is not a place for a man to sit and wait, but a place for a man to do business.

SEARCHING FOR MISSING YOUTH.

HAS O. D. OCEAN CLOSED OVER FRED MCGAUGHEY?

Mother and Sister Wait Sorrowfully at Home, While Brother and Friends Search the Sea for Tidings of the Lost—A Sail in Small Boat, Traveler Disappears.

Another disappearance was added yesterday to Septima's long list—another resident of Los Angeles dropped from sight. This time the disappearance is one to arouse only sympathy for a mother and a sister, not in hearts rent with apprehension, but in sorrowful suspense in their pretty home, while a son and a brother and staunch friends are out on the waves trying to unravel a mystery.

Fred McGaughey seems to have been swallowed up by the Pacific. He was an employee of the Bartlett Music Company, was well and favorably known, and lived at the family home, No. 327 East Twenty-first street. He was 23 years old.

Monday morning he went to San Pedro, where he had recently launched a new 13-foot boat. Exactly he did not set sail for the open until noon or after, as a sailmaker at San Pedro reports having seen him a few minutes before noon that day.

McGaughey's intention when he left here was to spend the major portion of the day sailing and then to return by searching parties the young man set forth in the boat alone. He has not been heard of since. Sunday morning, a fair brother of the missing man, Tracy Schults and Elsworth Salzer, all of the Bartlett Music Company's store.

Two San Pedro launches, the Eagle and the Hawk, were sent out yesterday searching the coast for traces of the little boat and its lone passenger. Leading the searching parties are Ben Forest, a fair brother of the missing man; Tracy Schults and Elsworth Salzer, all of the Bartlett Music Company's store.

Yesterday one of the parties telephoned in from Newport, Orange County, that the trace of McGaughey had been found.

The members of the missing man's family are hoping against hope that McGaughey, if he met with an accident outside the harbor, may have been picked up by an outgoing vessel. The impression at San Pedro is that the amateur sailor has been drowned, unless, by a slim chance, his little boat may yet be beached to the friendly shores of Catalina.

GEORGE BERSCHIG MISSING.

George Berschig, who left his home on Saturday for a visit to his son at Hanford, is lost, and has not been heard from since Sunday morning, when the conductor of the north-bound train left him at Goshen, where he was to change cars for Hanford. Monday evening a telegram was received by the family, living at No. 1000 Crocker street, telling them the father had not arrived. Since that time diligent search has failed to give a single clue to his whereabouts. Mr. Berschig is 60 years old, and when last seen wore a black suit and a brown derby hat. He is below medium height, and has gray hair and a full gray beard.

JAMAICA ORANGES.

Are Now Coming into New York Market and Are in Good Demand for Thanksgiving Trade.

SPECIAL CORRESPONDENCE OF THE TIMES.

NEW YORK, Sept. 17.—The first Jamaica oranges have arrived and have been sold at auction.

The price is 16 per barrel, which, considering the earliness of the arrival and the condition of the fruit, was a high price. It must be admitted, however, that the fruit was much better than the season's first arrivals.

California growers will have fiercer competition from Jamaica this year than for several years previous, if reports are to be credited. The effects of the hurricane have disappeared, and the comparatively small proportion of orange trees which were injured have apparently recovered their full vigor.

Moreover, the English colonial government has adopted a sort of system of encouraging fruit production and has assisted in some degree in increasing the production of oranges. Some ships are faster and have better appliances for bringing the fruit here in good condition, consequently it can be left longer in the trees and other changes have been wrought with reference to selling oranges here which will help materially in building up increased business.

When the first shipments of 1904 fruit began to come from California, Jamaica was then in their prime. Last season the 60,000 barrels of Jamaica's were relatively too small a quantity to count against California's great crop, but this season there will be more than 100,000 barrels, or substantially 275,000 boxes, to come. Last year the intense crop of California oranges caused very low prices to be paid for Jamaica's. The duty is virtually 10 cents a box, which is added to the fixed charges for picking, packing and transportation, creates practically prohibitive expense. There was little disposition to buy Jamaica's last year. At no time did they reach the price paid for the first shipments this season. This year it is expected that the inquiry for them long before any came, and these inquiries were partially responsible for the early arrivals.

Just at the time when consumers are asked with other varieties the Jamaica arrives, sour and filled with juice. Immediately orange lovers begin to buy it and they continue buying liberally as long as it lasts. Its season is generally from the last of October until about Christmas. It is the principal reliance of fruit dealers for their Thanksgiving trade. After sweetener oranges begin to come, such as Florida and late-season Porto Rico's, there is a decreased demand for Jamaica's. They are not popular for long. They are too acid and sour.

If California shippers will be conservative this year and will not send inferior fruit here to compete with Jamaica fruit at its best there will be fewer unprofitable sales, and buyers will not cause for complaint from anyone.

A good deal of buying is done in and about New York on looks alone, and well-colored, clean-looking oranges will be bought when other grades would be passed by. It is wise to consider this phase of New York market when arranging for this year's shipments.

If business continues relatively as good as it has begun there need be no cause for complaint from anyone. Apparently the orange trade is opening better than ever before, and shippers will probably expect a very busy business all the season. But there must be no attempt to force on this market fruit which is inferior. If that is undertaken exactly the same thing which happened last year will occur again. There will be low prices and indifference among buyers. New York buyers will not take what they do not want at any figure, and the shipper of oranges who undertakes to force upon them poor fruit will receive his recompense in reduced prices and curtailed profits.

Half Million Women

—ninety per cent of whom are at the head of homes—this mighty number of home-loving, home-making women will to-day receive by mail, or buy at the newsdealers, the large, sixty-page, handsomely illustrated October number of the

WOMAN'S HOME COMPANION

a magazine which is in very truth homelike and companionable. The October issue will entertain over two million readers, by whom it is regarded as the favorite and best of all illustrated periodicals for the home; and the number is increasing every month. You will be one of them if you note the details here.

You who like good fiction—

In the first chapters of our great serial the appearance of "The King of Diamonds" is a most thrilling and dramatic portrayal. It will make the most fastidious reader "sit up, ask for more," and look with that "can't wait feeling" for the next issue.

You home or college girls who want Hallowe'en fun—

Mrs. Thomas A. Edison had a Hallowe'en party full of unique and weird suggestions; read about it; also other ideas for a jolly, shivery, fate-setting evening.

You who follow the world's doings—

Here is a realistic description of a new engine of destruction, which by its very horror may become the most potent of peacemakers.

You Pennsylvania-Dutch folks—

A story of "Benjie Stoltz's Woeing," which is fragrant with "fasnachts" and "smacks of 'snitz.'"

You who would learn rare dishes—

"Famous Southern Recipes," the old Virginia kind, the jealously guarded, unequalled kind. Here are some of them, for you.

You who like prize-money—

Hundreds of dollars, awarded each month for bright ideas, best recipes, puzzle answers. Special prizes for both professional photographers and amateurs. Better enter, one of these contests and earn money.

You who need an uplift, everybody—

Mrs. Margaret E. Sangster will hereafter, beginning with this, the October number, contribute a "Home Page" of her helpful, kindly, sympathetic talks to the readers of the Woman's Home Companion. After thousands of friends should spread the good news.

All of these good things—and more—for ten cents at your newsdealers. Yearly subscriptions, one dollar. Get the Woman's Home Companion to-day, from your newsdealer, or send to

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Missing Boy Found.

Gay Siggle, the lad who was missing from his home on Pico Heights for several days, has been found by the police, and has been turned over to the care of the Pico Heights Home.

Oil-lamp Explosion.

Last night while Mrs. J. Kozack, No. 917 Boston street, was carrying a lamp she stumbled over a rug. The lamp exploded, throwing burning oil over the room, but missing the prostrate woman. Damage \$15.

More Members.

The following named were yesterday elected to membership in the Chamber of Commerce: J. E. Herbold, C. W. Mills, H. Clement, Rly Bros. Stone Company and International Savings and Exchange Bank.

L'Alliance Francaise.

The first fall meeting of L'Alliance Francaise will be held tomorrow afternoon at 2 o'clock at the residence of Mrs. W. S. Bartlett, No. 222 West Twenty-seventh street. In a mention of the coming meeting, published yesterday, the address was erroneous.

Automatic Car Scale.

The contract has been let for the installation of a standard automatic car scale at the shop grounds of the Southern Pacific on the east side of the river. The scale is the most modern in existence, weighing the cars automatically, and registering the weight on a dial. It will cost about \$10,000, and is now on the way from the East.

Exceptional Programme.

A theater programme of exceptional attractiveness was given to the patrons of the Mason Opera-house last night. It is from the office of the American Engraving and Printing Co., and is the design of T. Newman, the publisher. It is printed in six colors on heavy plate paper by the Times-Mirror Printing and Binding House. The programme is in book form, the objectionable drawings, so often found in theater programmes, have been carefully excluded.

Natural Law.

Dr. Alexander J. Melvor-Tyndall spoke in Blanchard Hall yesterday afternoon and evening. He sought to show that life is governed by natural law, and that each human being has within the power of his or her mind and soul all the elements that, rightly and intelligently cultivated and directed, will result in the attainment of health, happiness and success in daily life. He will speak tomorrow afternoon and evening on interesting subjects.

Fairish Out for Mayor.

Councilman O. E. Fairish, Councilman from the Third Ward, announces himself as a candidate for the Democratic nomination for Mayor. "I think that my record in the City Council has been such as to secure the approval and commendation of all good citizens and to merit their support. I believe in thorough and clean administration and in being just and equitable to all interests, the strict enforcement of the laws and ordinances of the city," said Mr. Fairish last night.

Runaway Connection.

A runaway team dashing down the Fourth-street hill, headed straight for the crowded corner of Fourth and Broadway, caused a commotion yesterday afternoon. The team, a pair of quiet-looking blacks belonging to the Eastern Outfitting Company, took fright on Olive street, where the wagon was being loaded with furniture. Only a few of the lighter articles had been loaded, and these were scattered. At Hill street the wagon was overturned and the horses stopped.

Buying and Building.

Wright & Callender have sold for J. B. Lankershim to a local investor, 50x120 feet, on the east side of Los Angeles street, between Third and Boyd streets, with a two-story frame business building, which will be replaced by a brick block; consideration named, \$25,000. Daniel Murphy has purchased of the Sterry estate the handsome three-story frame residence of the late Judge Sterry, on the northwest corner of Wilshire boulevard and Coronado street, with lot 150x200 feet; consideration named, about \$30,000. Dr. Leon M. Closson buys of Mrs. Belle M. Parker, through Mines & Pariah, 60x120 feet, with ten-room modern residence, No. 1015 Magnolia avenue; consideration named, \$25,000.

Club Reorganized.

The Republicans of the Ninth Ward met at the rooms of the Oberon Club on East First and Cummings street on Tuesday night, and were reorganized for the fall campaign. Over 100 men were present, and an interesting address was made by Maj. Powell. E. M. Jessup was elected president of the club; Myers T. White, secretary; Dr. L. D. Swartout, treasurer; and vice-presidents were elected from the several precincts as follows: James A. Cowan, F. D. Davie, R. E. Wirsching, Sam Kutz, P. A. Mulford, Charles B. Porter. These are to appoint three lieutenants from each of their respective precincts, and these with the officers will comprise the executive committee. Meetings will be held each Tuesday evening in the Oberon Club rooms.

Grocery Store Burned.

Patrolman Kennedy discovered a fire in the rear of the grocery store at No. 859 Maple avenue, owned by P. Fetheroff, last night about 9 o'clock, and turned in a call alarm. The engine-house is less than a block away, was out on a call at Eleventh and Hope streets, so the building was wrapped in flames by the time Cos. 5 and 10 responded. Cos. 1 returned before the fire was subdued. The property consisted of one-story store buildings, and ran through to No. 319 East Ninth street. The other buildings were unoccupied. The grocery stock was practically destroyed and the buildings fronting on Maple avenue were damaged to the extent of about \$1000. Plutaro R. Botiller, No. 855 Maple avenue, is the owner of the property and his loss is covered by insurance. The fire is supposed to have started at a gasoline tank, outside the grocery store.

BREVITIES.

Mr. Fletcher, Proprietor of The Fletcher Tailoring Co., 1345 South Broadway, has certainly done wonders to this city, one can go there and get a well suit made to order in the very latest fashion on credit, all Mr. Fletcher asks is only one dollar per week. You can take the clothes and wear them while paying weekly. It is a mighty fine thing for those who cannot save together the price of a suit or an overcoat.

There's no need of paying \$5 to \$10 when \$1.50 will do; ten-year gold-filled reading eyeglasses and spectacles at \$1.50; guaranteed in every respect. Highest-grade ground-to-order glasses at one-half the usual prices. Eyes tested by expert graduate opticians. Clark's Jewelry and Optical Store, 351 South Spring, near Fourth street.

The Times' Home phone number has been changed from Exchange 2 to "The Times." Simply call the operator for "The Times," no prefix or number being necessary.

CANBY BELL IN CELL.

Crazy or Pretending, He Makes Sensational Debut at County Hospital, Stark Naked.

Canby Bell, another of Maj. Horace Bell's sons, who have caused him and others much trouble, is a problem to the County Hospital authorities. They don't know whether he is really crazy or pretending.

He is locked in the insane ward. His debut there was one of the most sensational of the escapades of the Bell boys.

They took him over wrapped in a blanket—otherwise naked. He would not keep a stitch of clothes on at first, until Dr. Barber, who knows the family well, told him he might as well cut out his funny business. Bell then submitted to being clothed.

It is impossible to get anything out of him. He is apparently under the delusion that he is dead and dumb. He was brought from a lodging-house on Central avenue, where he has been acting queerly for a week or more. Before being brought to the hospital, he is said to have created a "rough house" at the place.

Wash Novelties for Fall.

"Ribola Suitings," that's the name the makers give to a new wash material we show this week. It's a decided novelty made especially for the new shirt waist suits, or for separate waists or skirts. Comes in plain or fancy effects, plain blues, browns, tans, white or black. The fabrics are embroidered and printed effects, dots of all sizes, small figures, etc., on grounds of cadet blues, jaspers, light tans and other fashionable shades. Just the proper weight for now. The plain colors are 25c Yd. The fancy ones are 40c Yd.

Damasc Waists

The most perfectly mercerized fabrics we have ever shown are here today. Pure white satin broches in a wide variety of pretty novel patterns for waists. They are in the medium and heavier qualities for winter use. Newness is the only word that fits their case. Priced from 25c to 60c yard.

Imported Cheviots

Fall fashions in these genuine Scotch fabrics are here in styles and colorings to make you want them. They are different in every way from the domestic goods and the difference in cost is more than made up in width. Fancy stripes in medium and light colors. 36 inches wide, 50c yard.

New Fall Woolens.

Broadcloths will perhaps be stronger this fall and winter than any other one wool material. We anticipated this state of affairs and bought with a free hand. Following is a partial list of colorings you may choose from at the dress goods counter.

Navies, Cadet, Royal and Sky blues, black, white, Cream, Champagne, Putty Color, Mode, Tan, Brown, Burnt Orange, Onion Peel, Leather, Pearl, French Gray, Coral, Lavender, Petunia, Nile, Reseda and Myrtle Greens, Reds, Garnets, Wines, etc.

They measure from 54 to 60 inches wide, priced from \$1.00 yard to \$4.50.

The better grades are sponged and shrunk, ready for the scissors.

Cravenettes—These cravenettes are guaranteed waterproof. It's the ideal cloth for winter suits or coats. We show them in plain or mixed. Coverts, mixed and pin head effects. Two toned tweeds perfectly cravenette, in oxford grays, tans, modes, castors, browns, black and overplaid styles; 50 to 60 inches wide \$1.50 yard to \$2.75.

PRICE 3 CENTS.

NEW ARCADE FOR ESPEE.

Modern Depot That's to Cost Quarter Million.

Fifty-thousand-dollar House at River Station.

Long Beach and San Berdo Get Improvements.

The Southern Pacific has definitely decided to tear down the Arcade and build on the site a \$250,000 modern depot. Plans have been perfected within the past month, and blue-print copies have been forwarded to the general offices of the company at Chicago and San Francisco for approval. River Station depot is to be torn down and a \$50,000 three-story structure erected by the Espee station, and also a large freight house is to be put up. In all, improvements are to be made by the Southern Pacific in Los Angeles and vicinity within the next year which will amount to nearly or quite half a million dollars. The four depot projects here mentioned, have been definitely settled upon, and a high which of the road yesterday admitted that they will all be under construction within twelve months.

Long Beach will also come in for an improvement, it being known on very reliable authority that a \$15,000 depot is to be built on the ground now occupied by the Espee station, and also a large freight house is to be put up. In all, improvements are to be made by the Southern Pacific in Los Angeles and vicinity within the next year which will amount to nearly or quite half a million dollars. The four depot projects here mentioned, have been definitely settled upon, and a high which of the road yesterday admitted that they will all be under construction within twelve months.

Not a stick or piece of steel will be left standing when the demolition of the Arcade is completed. The entire building, inside and out, is to go, and the building structure will be built of new material throughout. It will be much larger and will front nearer Central avenue. The extension of Fifth street will practically be closed, as the building will inclose it on all sides except the point of entrance. Many months ago the Southern Pacific obtained control of the Central-avenue frontage between Fourth and Fifth streets on the east side, and the greater portion of the same frontage between Fifth and Sixth. All the stone buildings now on the ground will be removed to make room for the \$250,000 structure. The depot proper will be devoted to enormous waiting-rooms, a fine dining-room, offices for the passenger department managers, and a baggage department, extensive enough to house any unloading of trunks that may come. There will be no more complete or elegant passenger depot on the Pacific Coast.

FOR TWO RAILROADS. While it is not definitely admitted by Espee officials it is generally understood that all of the overland business of the San Pedro, Los Angeles and Salt Lake Railroad (a Harriman line) will be turned in at the new Arcade, which will thus constitute a union depot for the two systems. The two roads are to be run in the closest conjunction. An official of the Southern Pacific yesterday: "While it is not true that the Salt Lake road has bought the Southern Pacific line between River station and San Bernardino, some \$100,000 of an agreement will be entered into whereby the Salt Lake will handle most of the local business for some of the Southern Pacific simply being interested in the line as a big feeder for the overland business and for the exchange of shipments. The business is concerned that road does not pay expenses, but it is one of the heaviest feeders that the Southern Pacific has in Southern California."

IMPORTANT MOVE. The transfer of the division offices from the Arcade to River station is very important and was decided upon only after long and careful consideration. The fact that such a change was to take place has been known at River station for several weeks. The reason was more successfully kept under cover at the Arcade. The move is being made because the greatest interests of the local division of the Southern Pacific are at River station and demand close supervision. The freight-house alone is doing a business of \$750,000 to \$1,000,000 a month, and the Los Angeles division has control of the big yards and everything in River station. The San Joaquin division begins at the yard limits of River station.

The present structure occupies only half of the ground owned by the company at San Fernando and Sotoletto streets. The new building will be about 75x140 feet, three stories and will be built to carry a fourth story if necessary. Among the offices which will be moved to River station will be those of the general superintendent, assistant superintendent, superintendent of motive power, resident engineer, engineer of maintenance-of-way and chief dispatcher. The new depot at San Bernardino will be a one-story structure, mission style of architecture, with long arcade both in front and in the rear. The main waiting-room will be fitted up with broad seats at the corners and long double back-to-back seats in the middle. The depot will be used in conjunction with the Salt Lake road.

COAST DEVELOPMENT. The extraordinary development of Long Beach within the last two years has brought that seaport town into a prominence which demands the new depot and freight-house which are to be built. The Southern Pacific has been doing more overland business out of Long Beach city than it has out of Pasadena, and the two places are now about equal in population. It is destined to become one of the largest feeders in Southern California, in the opinion of Espee men. These developments by the Southern Pacific are the outgrowth of a careful scrutiny of the field by high officers of the railroad company and speaks volumes for the confidence and faith in the company in the future of Los Angeles. With a monopoly of San Pedro harbor as a foundation for its business (the Salt Lake being a Harriman line), the Southern Pacific is planning to spend millions in the development of the holdings at that port. At present its business is principally in the hauling of lumber.

Steinway Pianos!

EVERY NOTE.

Every Steinway is an art piano—whether based in inlays of rare woods and precious metals, or in the severest ebony finish. It is an art of invisible form expressed in a marvelous tone; a kinship of registers; a refinement of mechanism which is the wonder of every pianist. True to its position as one of the world's art works, the Steinway Piano creates its own atmosphere and makes its own standards—both in relation to esthetic use and to trade.

EVERY NOTE. In the whole range of the keyboard of a Steinway Piano rings true and clear. It is the symphony of the piano maker's art.

STEINWAY GRANDS, \$875 UP. STEINWAY UPRIGHTS, \$550 UP.

Starr Pianos—the college favorite. Perhaps no test could be given that would so thoroughly demonstrate the worth of a piano as the everyday use of school work, where an instrument is being used continuously in practice and recitals.

EVENTS IN SOCIETY.

THE RITA GREEN of No. 469 Grand View street was the hostess last evening when she entertained a few friends with an informal dinner. Miss Green is a student of the University of Chicago and is a member of the Phi Kappa Phi Honor Society. She is a native of Los Angeles and her friends were surprised to find her so well known in the city. The party was a very pleasant one and the guests enjoyed the evening very much.

SWEETNESS.
There was much sweetness in the air last evening when the hostess entertained her friends. The party was a very pleasant one and the guests enjoyed the evening very much. The hostess was very kind and the guests were very much pleased with the evening.

At Ten.
Miss Ethelyn Grace Luitwiler became the bride of Robert George Schreoter yesterday morning at 10 o'clock, the ceremony taking place at the home of the bride's parents, Mr. and Mrs. Samuel Woods, 1001 Hildale avenue. The nuptials were witnessed only by relatives and a few intimate friends. The bride wore a white tulle gown, and the groom wore a tuxedo. The ceremony was officiated by Rev. Dr. McIntyre, and Miss Adelaide Luitwiler, a sister of the bride, acted as maid of honor. The bride was escorted by her brother, Mr. Robert Luitwiler. The wedding party consisted of the bride, groom, maid of honor, best man, and bridesmaids. The reception was held at the home of the bride's parents. The party was a very pleasant one and the guests enjoyed the evening very much.

MR. AND MRS. ROBERT GEORGE SCHREOTER.
The bride and groom were seen leaving the church in a motor car. The bride was wearing a white tulle gown and the groom was wearing a tuxedo. The ceremony was a very simple one and the guests enjoyed the evening very much.

More New Silks some away under price
There's an interesting study in silks awaiting you, whether you intend to buy or not. But we're going to have so many tempting offerings placed in the way that not one in ten who comes to view the exhibit can resist buying.

Of particular interest to wanters of costumes, are the new Burlington Pongees, in black, solid colors and natural shades. 27-inch width, \$2 a yard.
And the new Rajah Pongees—also immensely popular for costumes—in 30-inch width, at \$1.25 a yard.
75c to \$1.50 Silks 50c
Satin Mesallines in a variety of desirable shades; Moire Velours and Poplins in black, colors, street and evening shades.
Broken lines left over from Spring, but highly desirable for costumes, waists, foundations, etc., 50c a yard, to make sure of a thorough clearance this week.
New \$1.25 Silks at 65c
We own about 50 pieces of new Fall Silks at practically two-thirds actual value—Taffetas, Louisines and Peau de Cygnes in neat checks, stripes, zig-zag designs and small figures designed for shirt-waist suits.
Today—or tomorrow, if any are left—you may have your choice at 65c a yard. They'd be 85c to \$1.25 if we had paid full value.

Inexpensive Drapery Fabrics
Really artistic effects can be produced with inexpensive stuffs.
For portiers, couch covers, window seats, utility boxes and the like there is nothing, at anywhere near near like cost, that will equal these.

English Cretonnes
The genuine imported stuffs, in handsome designs and colorings that are as pretty on one side as on the other, and will retain their beauty after many trips to the laundry. Our own importation—so the patterns are exclusive.
42-inch width, 35c a yard.
45-inch width of heavier quality, 50c a yard.
Blankets 1-3 Off
30 pairs of white blankets that have served us as salesroom samples are now free to go at a full third under the prices their duplicates have brought.
All somewhat soiled, of course—but few of them to any such extent as to necessitate washing before being put in use.
New Ribbons
These promise to be the favorite ribbons for girdles and millinery.
5-inch Ombre Taffeta lustre (shaded) 35c a yard.
Same in plaid, only heavier, 50c a yard.

Linens Specially Priced For Two Days
Twenty-five per cent. to be saved on towels and table damasks by coming today or tomorrow.
Nothing misleading about that statement. The higher prices quoted here show exactly what the articles in question have sold at up to today, and what they will be after Friday.
\$1 Damasks 75c—All of our 66 to 72-inch bleached and cream damasks of the dollar grade on sale today and Friday at 75c a yard.
\$1.25 Damasks 95c—Our entire stock of 70 and 72-inch bleached and cream damasks of the \$1.25 grade—30 or more different patterns—at 95c a yard on Thursday and Friday only.
Towels—18 x 36 inch hemmed huck towels of the grades we've always sold at 16 2/3c will be on sale today and tomorrow at 12 1/2c each.
But as there are only 75 dozen of them it won't be safe to wait till tomorrow.

ONE PASTOR'S COLONIST ARRIVING GREAT WORK. BY THE THOUSAND.

Builder of Many Churches to Celebrate Sunday.

Silver Jubilee of Service in Busy Ministry.

All Churches in Which He Labored to Greet.

A record of twenty-five years of continuous service in the ministry of the Congregational churches of Southern California is the notable event which will be celebrated next Sunday in Los Angeles, in honor of Rev. Frederic A. Field.

Excursionists to the number of 1600 arrived over the Southern Pacific yesterday. Trunks are piled five high in a dozen long rows, and extra help was called in to handle the baggage. Besides the regular overland trains, three specials totaling forty tourist coaches arrived before sunrise yesterday.

"These people are all colonists, who have taken advantage of the low rate to California," said an official at the Arcade in speaking of the rush. "The three specials came in almost together over the Coast Line and was a great sight to see the happy families unloading, in their anxiety to get into the fresh air. It was just daybreak when the first train arrived. Most of them are bound for the outlying towns, Azusa, Pomona, Santa Ana, Covina, etc., and have come to stay. There will be many more loads and they will keep away into the country so rapidly that it is hard to realize that they have come. This is the biggest colonization business which this section of the State has ever known."

We are handling over 2500 trunks a day now," said Baggage Master Crickler. "The colonization rush is certainly keeping us on the jump as they all want their trunks sent out into the country at once. From the appearance of the baggage, I would say that a pretty good class of people are coming here. These colonists are certainly the best looking packages."

Some 1200 or more colonists have arrived in the last two weeks. There have been two or three extra sections of trains and about forty extra coaches. The passenger department has no figures to show how many colonists have actually come.

Rev. Frederic A. Field, pastor of the Third Congregational Church, East Main and Railroad streets.

It is believed this record is unequalled by any minister in the State; and as a fitting observance of this silver jubilee in Mr. Field's successful ministry, a service of much interest has been planned to take place in Mr. Field's church next Sunday evening.

Rev. John L. Malt, superintendent of home missions in Southern California, will deliver the main address, and there will be a special musical program. Mrs. Elizabeth K. Wuerker, Mrs. Dr. Soller and Rev. Thomas Hendry will give the offertory.

Features of the service will be greeting brought to the pastor of Third Church by representatives of all the churches in which he has labored in Southern California; and various city churches will be represented.

In his quarter of a century of ministerial labors, Mr. Field has established a reputation of organizing pioneer churches and building church edifices. He has labored in many needy fields, and seven prosperous churches stand today as monuments of his faithful work in the early years.

Mr. Field comes of old colonial stock. He was born in Lawrence, Mass., in 1828, and he traces his ancestry back to John Alden, whose name he bears. John Alden and John Hopkins, who came over in the Mayflower.

Oberlin Collier, was Mr. Field's alma mater, and after he came to California, in 1875, in search of health. Feeling a special call to the ministry, he entered the Pacific Theological Seminary, and graduated there in 1879.

His first pastoral charge was Westminster, in that same year, and he was ordained there in 1880. He was married to Miss Clara M. McDonald at San Diego, and to this pastor he has been a great help to the church. He has been a great help to the church. He has been a great help to the church.

Then Mr. Field served a year as pastor at Buena Park, and then a year and a half at Redondo, where he built a pretty church.

Los Angeles again claimed the labors of this pioneer in church work, and he was placed in charge of the field at the West End Congregational Church, out on Temple street. In connection with this work he organized a church on Brooklyn Heights and with his own hands built a pretty little church adjoining Prospect Park.

Then Mr. Field returned to the pastorate of the Third Congregational Church, where he has labored twenty years before, while acting as associate pastor of First church, then located at Third and Hill street.

The Third Church, while occupying a trying field, is doing an important work among the people residing in the vicinity of River Station. Its main field is among the railroad employees and their families, and as these people are constantly subject to a shifting about, there have been many discouragements in the way of doing missionary work, just as they were getting well into church work; but the influence of the little church have gone out to many sections of the country, and although the work has been established for twenty years, it is still, in many points of labor, doing a missionary work to the pioneer field. It probably has a more shifting parish population than any other church in this part of the State.

Interesting plans for institutional work in this section of the city have been long cherished by this devoted pastor, and he has been able to provide suitable attractions and accommodations for reaching the railroad men who have no places attractive to them in the hours they are off duty.

AMERICA HAS "YELLOW PERIL."

NOT THE CHINESE, BUT OUR SENATIONAL PRESS.

Some Timely and Sound Observations on the Labor Question by a Resident of the City of Mexico. What "Organized Labor" Has Done for New Zealand.

O. C. Ellison, writing in the Mexican Herald on the "Yellow Peril" in the United States, which is, he says, not the Mongolian, but our sensational press, takes up the labor question and incidentally sounds a note of warning to Mexico. He says in part:

"The 'yellow' press of the United States, in all its aspects directly and most unmistakably depicts the strenuous undertow, sociologically, of the substrata in the human sea in the great republic. Its aim is to engraft, if not all, the same presumably distasteful American."

"First, its main characteristic is contempt for religion and an utter oblivion to the profound evolutionary and constructive part it has played in the unfolding of race."

"Second, a positive hatred for all educated leadership not wearing their own labels and advocating their own account perversion of sane political economy."

"Third, ineffable disdain for the law, as a profession, and opposition, to the point of murder and assault, against the most sacred legislation of the State, and its inevitable logic."

"Fourth, the 'yellow' press of the United States, in all its aspects directly and most unmistakably depicts the strenuous undertow, sociologically, of the substrata in the human sea in the great republic. Its aim is to engraft, if not all, the same presumably distasteful American."

White Ribbon Birthday. Anniversaries of Two of the White Ribboners to be Celebrated This Day.

The birthday of Mrs. Hester T. Griffith, president of the City Federation of the W.C.T.U., will be celebrated at a meeting of wearers of the white ribbon today. It is also the birthday of Mrs. Mary Clement Leavitt of Boston, the first woman missionary of the white ribboners sent abroad for the world.

The meeting will be at the First Methodist Church at 3 p.m. Mrs. Griffith will speak on "White Ribbon Sisterhood Around the World." Mrs. Lucy Blanchard, president of the Los Angeles Union, will preside.

The San Diego Poultry Show. The third annual show of the San Diego Poultry Association will be held in San Diego, December 15, 16 and 17, 1904. The previous shows of this association have been uniformly successful. There is no admission charge for country and pet stock on the coast. Judging of fowls will be by acre card, so that those who do not win will not be disappointed. All exhibitors will receive special care. C. M. Willard is president of the San Diego Poultry Association, under whose auspices the show will be given.

BARLOW FETE

(Continued from First Page.)

vate life T. H. Williams and Fred Stamm.

Lyons, but not least came "Billy" Nevin, the incomparable. No one could doubt that it was "Billy," for he was busily chewing gum, as usual, though disguised in a brilliant green frock coat and a red waistcoat and trousers of varied hue. The gum, together with his jolly laugh, settled any doubts as to who it might be. He was in the opening bar of "Hannah," when he came trooping the jolliest, most entrancing bunch of feminine beauty imaginable. Sam Bonash, in a huge violet hat and yellow gown, was particularly stunning, though Ben Harwood with a lacy parasol waltz bachelors all! The sextette brought down the house, and after vociferous applause "concentrate" to the next again.

If the show itself today is as fine as the dress rehearsal was last night there is no doubt that the vaudeville will win money for the Barlow plan.

CATALINA ISLAND. TO RESCUE A BEGGAR.

AYALON, Sept. 21.—A big black goat is exciting a good deal of curiosity among anglers and boatmen who have been fishing in the vicinity of Silver Cañon recently. Last Thursday the animal was first seen standing in bed of the cañon, and a plume which stands out from the rocky cliff. How he reached the top of the rock is a mystery, as it seems a physical impossibility except with block and tackle. The goat is there, however, and so far as anyone knows has been there constantly for a week past. He stands there like a lone sentinel guarding a citadel and it begins to appear as though he was unable to get down from his perch, and would remain there to starve. Mrs. A. W. Barrett and Mrs. Dr. A. J. Morris, who have seen him there for several consecutive days, are trying to get up a rescue party and either get it down or shoot it to prevent the agony of a death from starvation.

The new school teachers who opened school here Monday are Mrs. Dr. Hutchinson and Miss Nettie Trephett, the latter the daughter of Capt. Evan Trephett of the S. S. Cabrito. The school opens with forty pupils in the primary and twenty-six in the grammar grades.

George C. Pooley of Riverside met with a peculiar accident here some days ago. A lot of boys were firing rocks at the gulls through means of a sling and a rock. It gave him some discomfort, but beyond doing some simple things to ease the pain, he did not mind it. Some hours afterward a hemorrhage started from the wound which would not yield to treatment and he was taken to the hospital.

Mrs. William Horace Day, wife of the pastor of the First Congregational Church of Los Angeles, is a guest of the Misses Rosybel at Camp Seaview.

John A. Barker, a mining superintendent of Harker, Cal., with H. Alfred Janke of Plainfield, N. J., and W. Becker of the United States Navy is a guest at the Metropolitan Hotel.

Mrs. Lillian Leslie Page of Los Angeles, accompanied by her aunt and sister, Dr. W. D. Pitt, and Miss D. Nellie Pitt of McPherson, Kan., are at the Metropole.

Dr. A. J. Morris and Mrs. A. W. Barrett were trying their luck at fishing yesterday morning in the vicinity of Church Rock when a big black goat, known here as "Blackfish," gave the men a fright by appearing all about them. The monsters, from the top of the cliff, threw black bodies up into the air and apparently care to stand for such ogling, and cut and ran.

POMONA. PLENTY OF SCHOOL ROOM.

POMONA, Sept. 21.—For the first time in many years this city is amply supplied with school quarters. The newly erected school building, which is being occupied by the new High School building and the new grade school on Seventh street, having greatly increased the facilities. The attendance at the High School is the largest in its history. The new grade school on Seventh street, having greatly increased the facilities. The attendance at the High School is the largest in its history.

LORDBURG. TURNED TABLES ON ACCUSER.

LORDBURG, Sept. 21.—The court of Justice Barnes was turned into a dog house yesterday when the case of H. S. Thornbury, who was charged by Jeremiah Houser with cruelty to his fox terrier pups. Thornbury cleverly conducted his own case, and in his examination of Houser got the latter so tangled up in his own story that he answered several pointed questions for fear of incriminating himself. It was shown, however, by some of the best citizens of Lordburg that Thornbury was particularly cruel to his dog.

Mrs. A. M. Sproule has arrived home from a month's visit in San Francisco with her son, Frank P. Sproule.

Mrs. Tom Ray and son, John, returned last night from an extended month's visit to Missouri.

The Excelsior High School has begun another term with Prof. Anderson, Miss Monroe and Miss Brenner as teachers.

The marriage of C. E. Carpenter and Mrs. Ella Price, is announced. Both are well and favorably known here.

Grapes are being shipped from here to Los Angeles. Growers are not realizing a full crop. Many vines have died, as a result of the recent hot weather.

SAN DIMAS. ACQUIRING MANY RANCHES.

SAN DIMAS, Sept. 21.—H. A. Landwehr, a Dimas real-estate dealer, who has within the past few months purchased nearly 300 acres of orchard property on the outskirts of this place, has now added another orchard to his possessions, having secured the Stiger ranch, consisting of twenty acres in oranges and lemons.

Mr. Landwehr's investments here are all trades, the local men getting in exchange other property in various parts of the county.

W. F. Holtzinger of Pasadena has traded his ten-acre orange orchard at La Verne to J. Lee, a recent arrival from Cayton, Wis.

GLENDAL. BAPTISTS MAY RECOGNIZE.

GLENDAL, Sept. 21.—A meeting of the ministers of the Los Angeles Baptist Association, together with two laymen from each of the churches, is to be held here Friday for the purpose of recognizing the recognition of the Colony Baptist Church of this town. It will be an all-day session.

The grammar school will open Monday with four teachers, and will be opened for good until the new \$10,000 building is completed, which will be within ninety days.
